TRADING CHALLENGE COURSE SYLLABUS & GUIDE

Welcome to the Tim Sykes Trading Challenge!

Please use this as a study guide index when going through the courses.

You can use this syllabus as your guide for what courses you should do first and then proceed in the order below.

[There is a checklist you can follow to keep track of all the courses you have completed here.](#)

Start with the Student Orientation and 30-Day Bootcamp.

With the 30-Day Bootcamp, complete all the assignments in the Materials tab on each day's lesson.

While doing or after the 30-Day Bootcamp, you will want to continue building your foundation by completing all the courses in the PRELIMINARY section, then move to the ESSENTIALS.

Once done with both of these, you can add more valuable information by completing the ADDITION section.

If you are also part of Tim Bohen's and Rob Booker's Courses, you will want to include the Prerequisites course and 9:22 AM Welcome.

Make sure to be tuning in and look for all the live alerts, webinars, chats, and daily lessons during the challenge while completing these courses.

STUDENT ORIENTATION:

In this 13-part, 8.5 hour orientation package, you will learn:

This guide will also update the 7-step framework, provide a history of the framework, and review the basics of buying and shorting these stocks with live trades using the 7-step framework. Most importantly, this guide will include a review of recent successes and failures in terms of recent stock trades and recent students too for a comprehensive education on the penny stock market.

SPIKEABILITY:

A 6-hour guide on identifying and profiting from the hottest stocks that spike 100-500% within a few days, weeks, and months.

For the first time, Timothy Sykes reveals his time-tested formula for finding the stock market's biggest winners, which has helped him become a multi-millionaire.

Using dozens of past examples, Timothy outlines his "Spikeability" formula and shares his 15-point criteria for finding the best stocks in the entire stock market, which he previously referred to as Supernovas.

TRADING TICKERS 1:

Trading Tickers: the Long and Short of It” has one purpose, to make you a better trader. Whether you’re entirely new to the market or a veteran trader, there’s something in this DVD for everyone. While the first four chapters lay the groundwork for everything that goes into my preparation before I even make a trade, the last eight chapters dive into my daily strategies. Each chapter teaches a different setup that I play, including a grand total of 35 live trade examples! Experience my strategy as if you were sitting next to me, watching me trade, listening to my thoughts. You will see my entries, exits, successes, and failures. But, most importantly, you will see WHY I make my trading decisions.

TRADING TICKERS 2:

In this follow-up to Tim Grittani’s best-selling course, Tim updates all the strategies he taught in the original Trading Tickers. He also introduces viewers to new strategies he’s developed over the past few years that have proven to be quite successful.
